#### 4. First-aid measures

**Inhalation** If breathing is difficult, remove to fresh air and keep at rest in a position comfortable for breathing. Get medical attention.

**Skin contact** Remove contaminated clothing. Wash immediately with soap and water for at least 15 minutes. In case of allergic reaction or other skin disorders: Seek medical attention and bring along these instructions.

**Eye contact** Dust in the eyes: Do not rub eyes. Flush thoroughly with water for at least 15 minutes. Remove contact lenses, if present and easy to do. Get medical attention if irritation develops or persists.

**Ingestion** Immediately give plenty of water (if possible charcoal slurry). Never give liquid to an unconscious person. Only induce vomiting at the instruction of medical personnel. Get medical attention if any discomfort occurs.

**Most important symptoms/effects, acute and delayed** Symptoms can include irritation, redness, scratching of the cornea, and tearing. Skin irritation. Sensitization.

**Indication of immediate medical attention and special treatment needed** Persons with pre-existing respiratory tract, skin and lung (such as asthma) disorders may be aggravated by exposure to this product. Symptoms may be delayed.

**General information** Ensure that medical personnel are aware of the material(s) involved, and take precautions to protect themselves.

#### 5. Fire-fighting measures

**Suitable extinguishing media** Extinguish with foam, carbon dioxide or dry powder.

**Unsuitable extinguishing media** No restrictions known.

**Specific hazards arising from the chemical** Dust may form explosive mixture with air. During fire, gases hazardous to health may be formed.

**Special protective equipment and precautions for firefighters** Self-contained breathing apparatus and full protective clothing must be worn in case of fire. Selection of respiratory protection for firefighting: follow the general fire precautions indicated in the workplace.

**Fire fighting equipment/instructions** Ventilate closed spaces before entering them. Containers close to fire should be removed immediately or cooled with water. Prevent runoff from fire control or dilution from entering streams, sewers, or drinking water supply.

**Specific methods** Use standard firefighting procedures and consider the hazards of other involved materials.

**General fire hazards** Flammable solid.

#### 6. Accidental release measures

**Personal precautions, protective equipment and emergency procedures** Avoid inhalation of dust and contact with skin and eyes. Extinguish all ignition sources. Avoid sparks, flames, heat and smoking. Ventilate closed spaces before entering them. Wear appropriate protective equipment and clothing during clean-up. See Section 8 of the SDS for Personal Protective Equipment.

**Methods and materials for containment and cleaning up** Eliminate all ignition sources. Avoid dust formation. Collect dust using a vacuum cleaner equipped with HEPA filter. If not possible, gently moisten dust before it is collected with shovel, broom or the like. The vacuum cleaner should be explosion-proofed. Never return spills in original containers for re-use.

**Environmental precautions** Prevent further leakage or spillage if safe to do so. Do not contaminate water. Environmental manager must be informed of all major spillages.

#### 7. Handling and storage

**Precautions for safe handling** Avoid inhalation of dust and contact with skin and eyes. Dust clouds may be explosive under certain conditions. Flammable Solid. Ground container and transfer equipment to eliminate static electric sparks. Use only with adequate ventilation. Use non-sparking tools and explosion-proof equipment. Use personal protective equipment as required.

**Conditions for safe storage, including any incompatibilities** Follow rules for flammable solids. Keep away from heat, spark, open flames and other sources of ignition. Store in a cool, dry, well-ventilated place. Store in a closed container away from incompatible materials.
